BE A BLESSING FOR OTHERS

Nonprofit organization

He answered “Anyone who has two shirts should share with the one who has none, and anyone who has food should do the same”.
Luke 3:11

At the initiative of Rita NIYONIZEYE RUKUNDO

Our Goal: Pray and Help

- We pray according to the possibility and the spiritual conviction of each one, for all those who are in material need.
- We financially help families with difficulty in Rwanda, for a particular need, most often the situation of these people being urgent.
- The financial contribution for each member of the association is 10 euros per month.

For who?

- It is not about helping family members or friends, but people we don’t know personally and who are in need in Rwanda.

- Everyone can continue to help his family or friends on his side, but this is not the purpose of our association and it will not be from the funds raised.

For who?

I. These are people who cannot afford insurance for medical care

II. Women who have just given birth who can't get out of the hospital because they could not pay for the care they received. They are usually kept in hospital with their babies until they can pay.

III. We help those who are hungry or who don't have enough to buy a coat.

For these three situations, we act within our means of the moment.

How?

- We go to the hospital to identify the people detained at the hospital and, according to the means at our disposal, pay the bills for care to allow them to leave the hospital.

- By going to the local administration, we will identify the people who cannot afford the mutual health insurance. We pay them the subscription according to our possibilities.

- We buy the food and distribute it to the poor in poor neighborhoods: Rice, sugar, oil…

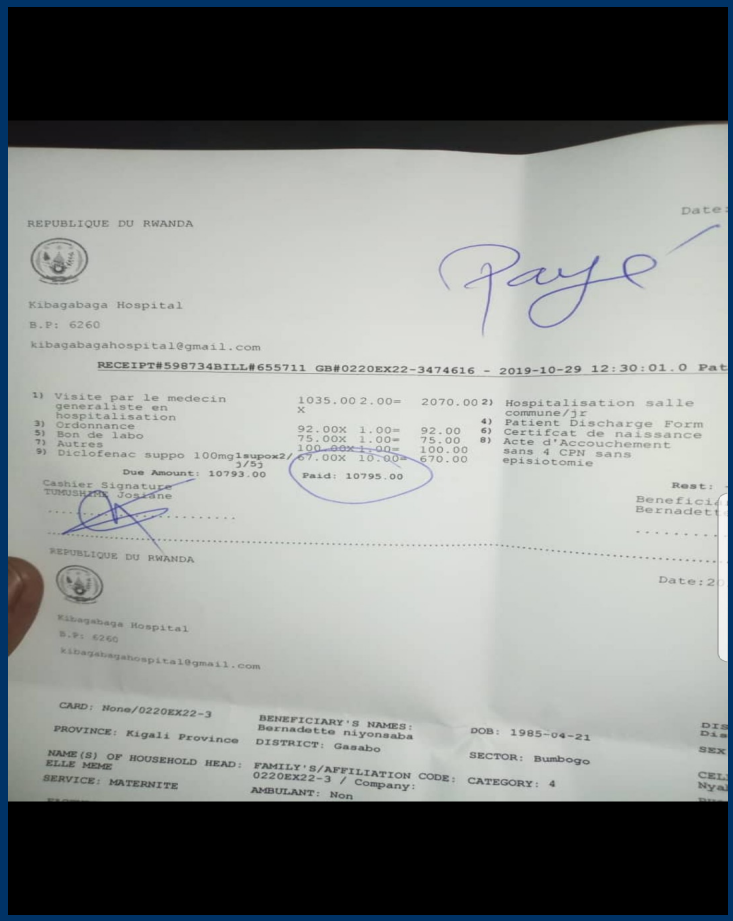

What is asked to members?

- Respect all requirements described by the association in order to achieve the mission and objectives of the association.

- Talk about the association around us, so that everyone who has the will and possibility to help these three people can join us. Any help is accepted.

Payment of the mutual health insurance for a poor family for basic medical care.

This woman who is raising her five children alone was delighted with the help of our association which consisted on foodstuffs.

CONCLUSION

- It is not a for-profit association nor about acquiring a certain notoriety.

- The benefit we get is that of being able to serve the person who is in need as long as we can. Our God who sees everywhere will reward us.

Thank you!
